## DETAILED ACTION

EE

### *Claim Rejections - 35 USC § 103*

1. Claims ~~43, 44, 45~~, 65, 67, 69, 71, 73, 74 are rejected under 35 U.S.C. 103(a) as being unpatentable over Peronek et al as discussed in paragraph 4 of the previous office action.
2. Applicant's arguments filed 5/6/2004 have been fully considered but they are not persuasive. In response to applicants argument regarding the Peronek et al reference not supporting the outer periphery of the flange, the examiner maintains position regarding a matter of location of parts as set forth in the previous office action. The examiner further notes that for apparatus claims 65, 67-73, apparatus claims must be distinguished from the prior art in terms of the structure and not the function. See in re Schreiber, 128 F.3d 1473, 1377-78, 44 USPQ2d 1429, 1431-1432 (Fed Cir 1997). In this case applicant does not cite the structure that performs the function holding the outer periphery of the flange.
3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
